DETAILED ACTION

1. The information disclosure statement (IDS) submitted on June 24, 2005 is considered by the examiner.

It is noted that the reference FR-2704985 has been changed to -- FR-2704958 --.

2. Applicant's arguments, filed on June 20, 2005, with respect to the objections to the drawings and claim have been fully considered and are persuasive. The objections to the drawings and claim 6 have been withdrawn.

3. Claims 6-17 are allowed over the art of record.

4. The following is an examiner's statement of reasons for allowance:

Claims 6-17 recite, inter alia, a control system for indication whether a module should be inserted into a module holder, the control system comprising a sensor configured to read an identifier of an element attached to the other of the module and the module holder when the module begins insertion into the module holder; a controller configured to receive the sensor signal from the sensor and output a control signal based on the sensor signal, the control signal indicating whether the module is authorized to substantially insert into the module holder.

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
